Winslow Adaptics Conflict Minerals Policy

The Dodd-Frank Act discourages the use of specified minerals from the DRC and surrounding countries. The source of the metals derived from these minerals should, where possible, be declared when they form part of manufactured goods supplied to the USA.

This letter is to certify that Winslow Adaptics products (including raw materials purchased from our supply chain) do not contain 3TG minerals; Tantalum, Tungsten, Gold and/or finished materials originating, sourced, and/or smeltered from the Democratic Republic of Congo or Africa. This policy will remain in effect for the foreseeable future.

Winslow Adaptics Ltd has received conflict minerals reports from its supply chain and has completed a Conflict Minerals Reporting Template, which is available on request.

Josh Mancey
